PROFILE SUMMARY

Detail-oriented Software Developer with 6 months of hands-on internship experience in frontend development. Proficient in building responsive and user-friendly web interfaces using Next.js, Tailwind CSS, and Redux. Experienced in integrating RESTful APIs and contributing to real-world company products through collaborative team projects. Demonstrated ability to translate design requirements into functional features while maintaining clean and maintainable code.

EDUCATION

2021 - 2025

G H PATEL COLLEGE OF ENGINEERING AND TECHNOLOGY

- Bachelor of Technology
- Computer Science and Technology(Internet of Things)
- CGPA: 7.8

WORK EXPERIENCE

Tristate Technology   01/01/2025 - 30/06/25
Software Engineer Intern

- Developed and maintained frontend features using Next.js to enhance product functionality.
- Implemented responsive UI designs with Tailwind CSS to ensure mobile-first compatibility.
- Integrated RESTful APIs for dynamic data management and improved interactivity.
- Utilized Redux for effective state management across complex components.

SKILLS

- React.js
- Next.js
- Redux, Redux Toolkit
- GitHub
- Tailwind CSS
- JavaScript
- TypeScript

PROJECT

1. Admin Panel – Grocery Web Application

- Role: Frontend Developer Intern
- Developed the complete frontend for the admin dashboard of a grocery web application using Next.js, Tailwind CSS, and JavaScript.
- Designed responsive UI components for product management, order tracking, user management, and analytics.
- Implemented API integration for real-time data display and actions like updating product inventory and order status.

2. Company Product – Internal SaaS Platform
Role: Frontend Developer Intern

- Built dynamic and reusable components, integrated REST APIs for data-driven features, and ensured responsive layout across devices.
- Worked closely with the backend team and followed Agile practices to meet sprint goals and deliver high-quality features.
- Enhanced UI/UX with consistent design patterns and optimized code performance.
